

~~SECRET~~ODP 81-1630
3 December 1981

MEMORANDUM FOR: Deputy Director for Administration

FROM: Bruce T. Johnson
Director of Data Processing

SUBJECT: ODP Report for Week Ending 2 December 1981 []

25X1

1983 Congressional Budget Justification Book (CBJB) []

25X1

25X1

The review of the FY 1983 budget proposals for the National Foreign Intelligence Program (NFIP) has been completed by the DCI and DDCL. Our "hit numbers" for the 1983 CJB []

[] which provide 32 new positions and a \$9,922K increase in funding. The new positions include 20 positions for applications programmers, 8 positions for CAMS, and 4 positions for staffing a remote data access facility in a new building. Three-quarters of the 1983 increase in funding is for CAMS and the remainder is to cover the increased cost of central ADP operations at the 1982 level. []

OS/ODP Joint Working Group []

The OS/ODP Joint Working Group met on 30 November. Items discussed included development of an Agency policy on the purchase of foreign manufactured computer equipment, magnetic tape destruction procedures, development of policy by ISSG on clearances for maintenance personnel, a proposal to establish an unclassified VM system, and a proposed briefing of the Directors of Data Processing and Security on the status of Working Group issues. []

Support to Office of Security ☐

4C (Community-wide Computer-assisted Compartmentation Control System) The original IOC for the 4C system has been changed from April to June 1982 to allow sufficient time to install the 4C IBM S370/158 computer in room 1A10, Headquarters. The OS 4C project manager foresees no major problems with this schedule change and the 4C users in the Intelligence Community will be informed of the new IOC date at a meeting in January 1982. ☐

25X1

ODP Space in Credit Union Building ☐

25X1

Architects in the Field Engineering Branch, Office of Logistics, are preparing a floor plan for ODP office space in the Credit Union Building. Upon completion, the proposal will be submitted to ODP for approval and revisions, as appropriate. ☐

25X1

25X1

SAFE ☐

The quarterly meeting of the SAFE Steering Committee was held on 2 December at 1430 hours at the Pentagon. Among other senior managers present were: Messrs. Hinnenan, Lipton, and Hart of CIA, Mr. ☐ of ICS, and ☐

25X1

25X1

During the week of 1-4 December, two operators from DIA visited the SAFE Center as part of an indoctrination and training program. The DIA will be operating a SAFE Center also. ☐

25X1

25X1

ADSTAR ☐

A factory test of the ADSTAR machine was 24 November. It passed with flying colors. ☐

25X1

25X1

New Computer Installed ☐

IBM completed the initial installation of the new 3081 Processor on 23 November. Checkout of this processor is underway. Initial diagnostics are being run by IBM remotely through a special Security-approved diagnostic phone link with the factory. This machine will be used in the JRS Batch network after acceptance testing is completed. It is the most powerful computer IBM markets. ☐

25X1

Significant Events During the Coming Week ☐

25X1

25X1

None.

Lt. Col. Wayne T. Johnson
